Appendix 1: Terrorists Continuously Released, Iraq

Appendix 2: The Truth About US Army Military Intelligence

Appendix 3: US Army Military Intelligence Units

" One does not have to be the President, a four-star peacekeeper General, or have an ivy league Ph.D. in world affairs to understand why the USA is in Iraq. Begin by looking at a map. Geopolitically, Iraq is the single most strategic nation in the Middle East. It borders on six other countries: Jordan, Kuwait, Iran, Syria, Turkey, and Saudi Arabia. From Iraq, and with its forces in Afghanistan, the United States can influence events in countries arrayed from the Himalayas to the Caucasus, and from the Black Sea to the Red, Mediterranean and Arabian Seas."-----Breaker McCoy, 2003
